

**NEW NOSE/TIP DESIGN**

Heavy Duty Harvester Guide Bar

**Titanium-BC™**  
**NOSE/TIP**

MACHINED EDGE

INTERNAL OIL FEEDER GROOVES

Part No. GB9BC

**FEATURES: NEW GB9BC 3/4" NOSE/TIP**

- Lube-Direct, Internal oil feeder grooves force the lubrication direct to the bearings, keeping them cool which results in longer life.
- Machined edge on the nose/tip reduces chipping and extends nose/tip life.

**GB 3/4" TITANIUM BC REPLACEMENT NOSE HARVESTER BAR**

Manufactured to exacting tolerances to maintain precision clearances for sprocket rotation providing less sprocket heating. Ultra high strength material, ensures trouble free performance in all cutting conditions.

**Features & Benefits**

- Ultra high strength Titanium alloy steel bar body
- Advanced sprocket tip system
- Premium roller bearings
- Replaceable Nose
- Longer bar life
- Guaranteed performance

**EXTENDING GUIDE BAR LIFE**

- Dress guide bar to extend bar life.
- Rotate the bar more often.
- Bar rotation will clean the previously used lubrication channel in the nose, whilst using a new one.

**GB PERFORMANCE FORESTRY EQUIPMENT**
