

INTERNATIONAL CHAIN AND CABLE

TRACTOR H-PATTERN STYLE TIRE CHAINS INSTALLATION INSTRUCTIONS

1. LAY CHAINS OUT FLAT

1A Cross Chain Hook

1B Fastener

Lay chains out flat behind tractor making sure ends of cross chain hooks are facing up (1A). Position chain fasteners (1B) on the outside of tire. Remove all twist and tangles.*

2. DRAPE CHAINS OVER TIRE

Drape chains over tire in the same position making sure ends of cross chain hooks face up and away from tire. Center chains on tire and position them to touch the ground in front of the tire. Tuck first cross chain under tire a bit in preparation to roll over them.

3. ROLL TRACTOR FORWARD

Roll equipment forward until the end of the chains are at a good working height—approximately axle height.

*Tire chains are built identical. There is not left or right chain. Lay tire chains in opposite directions so the quick hook (1B) is always positioned on the inside of the tire.

4. ATTACH FASTENER

Inside and Outside of tire

Inside and Outside of tire

Inside and Outside of tire

Inside and Outside of tire

4A. Inside first. Pull inner side chain tight and attach link to fastener.

4B. Count the same number of links on the outer side chain and place end of fastener through that link.

4C. Fold fastener back toward side chain to tighten. To increase tension, place fastener one link lower and fold back.

4D. Attach fastener under link on side chain. Tire chains should fit snug. To tighten more, REPEAT STEPS 4A-4D.

6. ADD CHAIN ADJUSTERS

Tractor Chain Adjuster (Binder Included)

Add chain adjusters for a more secure fit and to extend the life of your chains.

DRIVE SAFE—DO NOT

- Deflate tires to install tire chains.
- Drive over fasteners and hooks while installing chains.
- Install tire chains the wrong way.
- Install broken tire chains.
- Drive with broken tire chains.
- Use tire chains when towing other vehicles.
- Hit curbing with tire chains on.
- Accelerate rapidly.
- Spin tires.

5. TEST DRIVE. INSPECT. RE-TIGHTEN.

Shown with Tractor Chain Adjuster (sold separately)

Test Drive, Inspect, Re-Tighten tire chains by REPEATING STEPS 4A- 4D so chains fit snug around the tire. Make sure the fastener is secure.
